
EMPTY BIG BAG

SBB 140

DESCRIPTION

SBB 140M

Manual empty big-bag station for fork lift

Extensible trellis structure

Hooking big-bag structure suitable for fork lift

Big-bag dimension :

- 1200x1200 h. 2000
- 1,5 tons

SBB 140P

Manual empty big-bag station with crane

Monolithic trellis structure

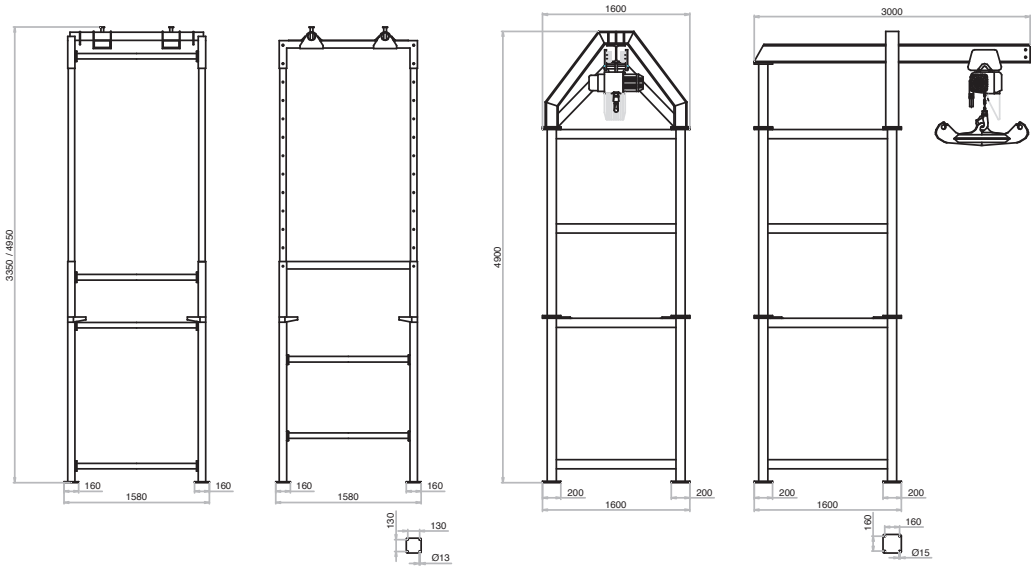
Motorized crane

Hooking big-bag structure suitable for crane

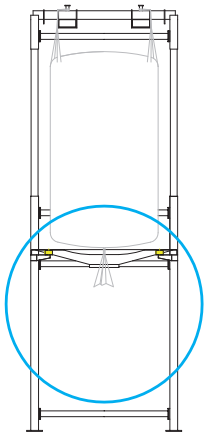
Big-bag dimension:

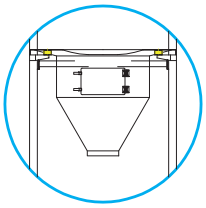
- 1200x1200 h. 2000
- 1,5 tons

DRAWING

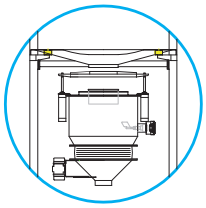


These dimensions are only guideline values. Please ask for a technical drawing for binding measurements.

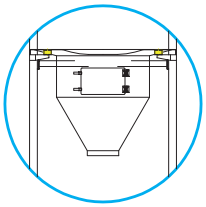




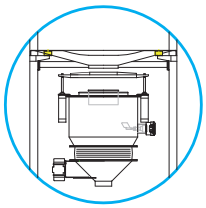
SBB 140 M.01 / SBB 140 P.01
discharge hopper for free flowing material with lateral door for big-bag opening



SBB 140 M.03 / SBB 140 P.03
discharge hopper for not free flowing material with dust containment system and bin activator for powder discharge



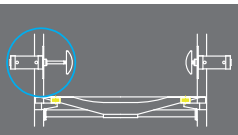
SBB 140 M.02 / SBB 140 P.02
discharge hopper for midium flowing material with dust containment system



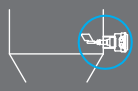
SBB 140 M.04/ SBB 140 P.04
discharge hopper for not free flowing material with dust containment system and elicopter blade extractor for powder discharge

OPTIONS

MV
motovibrator



HH
n.2 horizontal hammerers



LS
level sensor

VH
n.4 vertical hammerers

APPLICATION

- continuous processes
- batching processes
- conveying of ali bulk materials
